  - What new rules would help you?
  - What task do you wish you could automate?
  - What task do you always forget to do?
  - What task tends to be the most challenging?

- Notes:

# What can you do with a Server Addon?

You can:

- search
- route
- flag
- email
- add notes
- update fields

- Logic Services

  - Which button are you fed up with clicking?

- Notes:

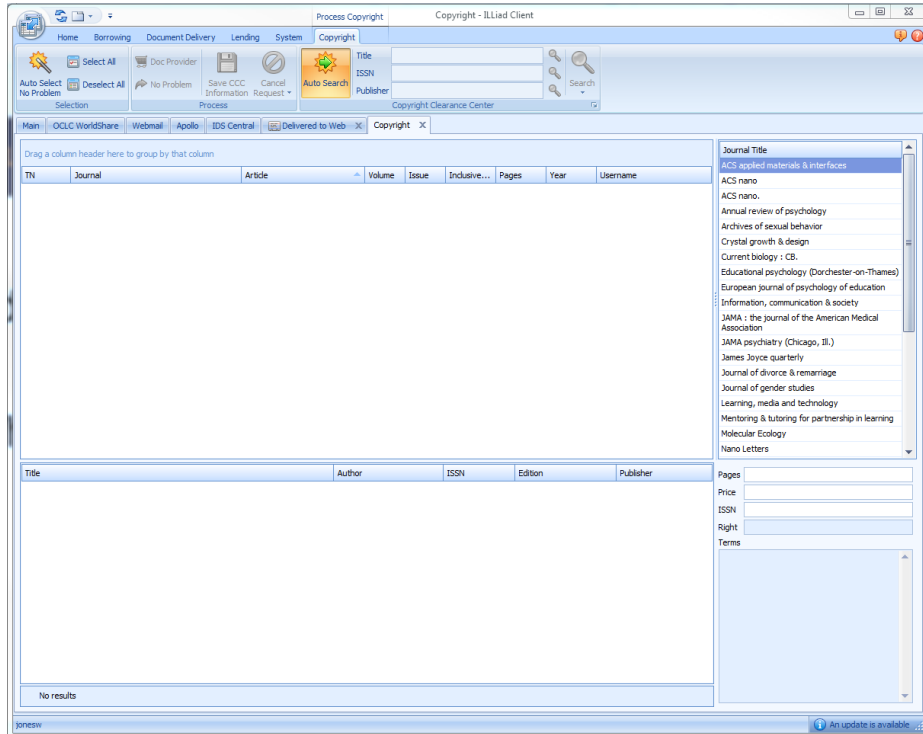

The screenshot shows a web browser window titled "IDS Central - ILLiad Client". The browser's address bar shows "Main | OCLC WorldShare | Webmail | Apollo | IDS Central". The page content includes:

- Header:** "IDS PROJECT" logo and a collage of images. Text: "A unified community of trust and support built around a critical and clearly understood purpose: effective resource sharing."
- Navigation:** Home | About | Join | Efficiency Tools | Conferences | Professional Development | Best Practices | Resources
- Member Login:** Form with fields for "Email Address:" and "Password:", a "Login" button, and a "Forgot Password?" link.
- News & Announcements:** A central banner for "IDS L-DIGIC Automation" with navigation arrows.
- Highlighted Tools:** "IDS PROJECT PRESS" and "IDS SEARCH" (described as a new searching tool for books and media).
- Footer:** "IDS Project Sponsors" (ATLAS, Cambridge Clearance Center, OCLC), "About Us | Join IDS Project | Contact Us", "Copyright 2015 Information Delivery Services Project All Rights Reserved", and a "Rethinking Resource Sharing" award badge (2008 and 2013 Innovation Award Winner).

- How do you like to communicate?
  - The “Virtual ILL Water Cooler”
- What tasks could be combined?
  - To eliminate opening up many TNs over and over
- What tasks blur the workflow lines?
  - Borrowing / Doc Del / Lending
- What resources should be readily available?
  - Troubleshooting guides, Policies, Contacts, Data

## Batch Processing

What actions would be good to batch process?

When would you like to see multiple TNs in one view?

- Why is a Dynamic Addon better?
  - multiple functions available in the same Addon
  - functions change based on Request/Process type
  - faster opening one Addon than many Addons
  - one central point of Addon maintenance
  - Addon automatically updates everytime a TN is loaded

- What do you wish the TN form did for you?
- What addons would you combine?
- How could the TN form be smarter?

- Notes:

- What actions would group with a click?
